

AIR TREATMENT SMART HOODS

HOODS CONNECTED TO YOUR WORLD

All hoods in the AIR TREATMENT by Faber range fit an Air Quality Sensor. This innovative device monitors the air and activates suction if it detects the presence of allergens, pollutants or odours. By storing data on the Faber cloud, via an app that can be downloaded to smartphones, you can monitor the air quality at home at any time, even remotely.

K-AIR WITH INTEGRATED MONITOR

K-Air is an intelligent vertical hood with a built-in 21" monitor that can be controlled directly via the touchscreen or app. The exclusive Sensor Air Quality keeps the temperature, the percentage of humidity and the presence of volatile organic compounds (VOC and VOC), Carbon Monoxide and Nitrogen dioxide and methane under control in the domestic environment. The sensor activates the hood as soon as pollution thresholds are exceeded, primarily in the space where you cook.

THE IDEAL SOLUTION FOR YOUR **SMART HOME**

**MONITORS INDOOR AIR
QUALITY AND RESTORES
FRESH AIR IN YOUR
KITCHEN**

**YOUR FAVOURITE WEB PAGES
ACCESSIBLE ANYTIME,
CONNECTION TO YOUR
INTERNET BROWSER
