

K-LINK TECHNOLOGY AND THE HOOD ADJUSTS ITSELF AUTOMATICALLY

FREE HANDS IN THE KITCHEN. THANK YOU, FABER

The beauty of cooking is also that you can express yourself freely, without distractions. If you have an induction hob and a Faber cooker hood with K-LINK connection, just start cooking and the suction power of the hood automatically adjusts to the selected cooking level.

HOB AND HOOD DIALOGUE WITH EACH OTHER

Faber has created an intelligent connection between hob and hood, through an integrated system that works with radio waves. A simple gesture is all it takes to set the hood to automatic operation. The system is always active because the radio signal is never interrupted. At the same time, the perfect operation of the hood is guaranteed avoiding the waste of energy and excessive noise that you could have set the suction at a level too high compared to the produced fumes.
